Otitechukwuka Oseji

Plymouth, UK • otiteos49@gmail.com • 07823612907 • LinkedIn.com/in/otitechukwuka-oseji

Inquisitive student with a strong background in AI systems, data analysis, and organisational leadership. Gained analytical and technical experience through AI testing with Beyond Sunday, data management at Oscom Integrated Resources, and structured project coordination as SRC President at Westerfield College. Driven by a keen interest in how AI, cybersecurity, and data governance shape innovation across finance and real estate sectors.

EDUCATION

BSc. Computer Science (Artificial Intelligence), University of Plymouth   **2025 - 2028**
Modules: Software engineering, Computer systems, Computing practice, Data Structures & algorithms

Computing Foundation, Westerfield College   **2024 - 2025**
Grade: 4.94/5.0

WORK EXPERIENCE

AI app tester   **Sept 2025**
Beyond Sunday, Remote
- Tested and validated AI-powered image recognition features across 50+ samples to assess accuracy, reliability, and data consistency in generating contextual recommendations.
- Collaborated with the development team via Teams to identify and document 5+ system bugs, contributing to improved AI performance, user experience, and algorithmic transparency.
- Conducted iterative testing and analytical reviews that enhanced the precision and dependability of AI-driven recommendation systems by 20%.

Summer Intern   **May 2025 – Jul 2025**
Varbs Kitchen
- Analysed customer ordering patterns to spot key factors influencing menu appeal and retention, applying data-driven methods to improve strategic decision-making.
- Processed and validated over 200 transaction records, using linear regression models to forecast demand and enhance data accuracy for business insights.
- Facilitated the design of targeted, evidence-based recommendations that improved operational efficiency and boosted off-peak sales by 12%.

Student Body President   **Oct 2024 – Jul 2025**
Westerfield College
- Addressed challenges of low student engagement and unclear feedback channels affecting campus initiatives through structured data collection and analysis.
- Designed and distributed student surveys using Google Forms, then analysed quantitative and qualitative responses via Google Sheets to generate actionable insights.
- Applied data-driven strategies that increased event participation by 35% and improved satisfaction scores, demonstrating strong analytical and organisational skills.

Assistant financial accountant   **Jul 2023 – Sept 2023**
Oscom
- Faced difficulties reconciling inconsistent transaction records that delayed accurate financial reporting and affected budget tracking.
- Implemented QuickBooks to organize and verify financial data, and improved the transaction reconciliation process.

- Enhanced the accuracy of monthly reports 20% enabling more reliable budgeting and resource allocation decisions.
